What do you need to know?

- Good Energy EV tariffs are fixed tariffs. This means your peak and off-peak prices will be fixed for the duration of the tariff.
- Our EV tariffs are usually 12 months in duration. When you get a quote, you will be able to see the specific tariffs that are currently available.
- If you switch to another supplier before the end of the fixed tariff, you will be charged an exit fee of £75.
- Your off-peak electricity rates run from 12am-5am and are not affected by clock changes.
- You need a smart meter to join our EV tariff. You must

Good Energy offers EV charger installation across England's South and Midlands.

Our expert team seamlessly integrate your EV charger with your existing or planned generation or storage; helping you to charge your EV directly from your solar panels.

We currently provide the myenergi zappi in tethered or untethered, 7kW or 22kW.

Good Energy is one of those rare companies that cares about its customers and makes sure that everything is carried out to the customer's satisfaction. They know their stuff when it comes to EV chargers and fitting them, despite my particular set-up requiring some challenges being overcome, this was easily done.

— Steve White
